Land Use Code (LUC):

This code is used to identify the use of a property. Some properties will have multiple uses such as a store (1100) and a single family (0100) on the same property. The code for this type of property would be (1200) mixed use. Another example would be an agricultural property (6000) with a section of land set aside for single-family use. This can be classified as the minority land use (0100) as an alternate LUC. Below is a list of LUC codes.
